APPLICANT'S PERSONAL HISTORY FORM – VERSION 6.2

©AIFP 2010

Name: ZACHARY BRIAN ROLFE

Date: 16 MAR 16

I understand that it is important for my own safety and the safety of others that I answer **all** of the questions below honestly. By signing the form after completing the questions, **I certify that my answers have been true and correct.** I understand that if reviews of my work history or background checks reveal information to show that any of my answers have been less than completely correct, this may **go against my application.**

We do not expect you to be perfect. Everyone has some flaws, and everyone has some areas in their background which they feel may not reflect positively on their application. The purpose of this form is to give you an opportunity to acknowledge these so they can be evaluated as part of the overall application process.

For each item, circle the answer which is correct for you.

In the space below, write down anything else you think is important that the interviewer or the panel should know about you in considering your application. You may also write on the other side of this page. Remember that we are not looking for perfect people. Everyone has some flaws or limitations. If there is anything else in your background which you think might reflect negatively on your application, now is your chance to tell us about it. Similarly, if there is anything you feel which strengthens your application that has not been asked about, this is your opportunity to tell us about it.

In regard to Part A, Q3, in April 2011 on the Strand in Townsville a fight broke out, I did not see how the fight started but when I did see it 3 men were beating 1 man who was unconscious. A member of the public had ~~seen~~ started to run up the street to get the police, I jumped in to try and break up the fight and protect the unconscious man and ended up in the middle of the fight. When the police arrived they gave me a public nuisance fine and dropped me back to Lavarack barracks. The man on the ground was in a coma for a number of days.

Since putting my application in I have completed "ASSIST" a suicide first aid course.

I am currently studying a certificate IV in Emergency Medical Response.
