ANNUAL STATISTICS

INTRODUCTION

The Northern Territory Department of Correctional Services (NTDCS) supervises both adults and youths who are subject to imprisonment/detention or community based court orders. Persons in custody are located at:

Adults -

- Alice Springs Correctional Centre;
- Darwin Correctional Centre;
- Nhulunbuy Work Camp (figures are included in Darwin Correctional Centre); and
- Barkly Work Camp.

Youths -

- Alice Springs Youth Detention Centre, located within the Alice Springs Correctional Precinct;
- Don Dale Youth Detention Centre, located 16 km south of Darwin; and
- Aranda House, located in Alice Springs, which is a temporary youth holding facility, utilised when the above two youth detention centres are over capacity.

The non-custodial orders are administered by officers located in eight offices throughout the Northern Territory (NT):

- Palmerston and Top End Region (Jabiru, Maningrida, Oenpelli, Tiwi Islands);
- Casuarina;
- Alice Springs;
- Katherine;
- Tennant Creek;
- Groote Eylandt (Alyangula);
- Wadeye (Port Keats); and
- Nhulunbuy.

This report presents detailed statistics on adults and youths supervised by NTDCS during 2013-14. Data from 2012-13 are supplied for comparison purposes as well as some long term data to show trends.

Statistics in this report include demographic characteristics of prisoners and community corrections clients, receptions, sentence status, offence types, last known address, caseload, community corrections client turn over, imprisonment rates and sentence durations.

The majority of the data are extracted from the Integrated Offender Management System (IOMS). Some internal data compiled by NTDCS are also used, (eg escape information, daily averages).

National rates of imprisonment, compiled by the Australian Bureau of Statistics (ABS) are provided for comparison with NT rates.

Selected characteristics in relation to the NT and other jurisdictions for 2012-13 from the 'Report on Government Services' are presented in this report.

Care should be taken when comparing information from this with other publications (eg ABS publications, Department of Correctional Services Annual Report and Report on Government Services), as different data collection timeframes, data extractions dates, different data sources or different counting methods may have been used.

The tables provided in this publication relating to the census of prisoners held on 30 June 2014 only include prisoners held in NT Correctional Centres. It does not include 12 prisoners who were held in Police Prisons on the night of 30 June 2014. These police prisoners are included in the ABS publication "Prisoners in Australia" therefore some differences may occur between figures in this report and figures published by the ABS.

The basis for reporting on offences is the Most Serious Offence (MSO) for the episode as recorded in IOMS. To enable national comparability, reporting on offences is in accordance with the Australian and New Zealand Standard Offence Classification (ANZSOC) divisions and selected subdivisions. Offence table abbreviations and classifications can be found in Appendix 1.

The totals in some tables (eg daily averages) may differ to the sum of the components due to rounding of the values of the components.

This comprehensive set of statistics is primarily used by NTDCS staff for tactical and strategic planning relating to correctional services in the Northern Territory. Researchers and practitioners from other jurisdictions may also find this publication informative.

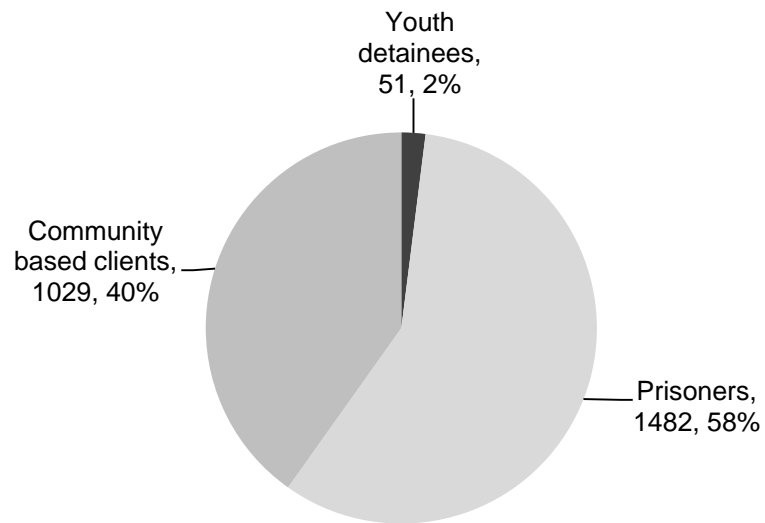

This report was compiled by the Criminal Justice Research and Statistics Unit, Northern Territory Government and is available via the website:

<http://www.nt.gov.au/justice/>

CASELOAD OVERVIEW

On 30 June 2014, the Northern Territory Correctional Services caseload consisted of 2,562 distinct persons, either undertaking a community based program or in custody in a correctional institution. This is estimated as 1,232 per 100,000¹ persons in the Northern Territory.

Figure 1 Northern Territory Correctional Services distinct client caseload as at 30 June 2014.

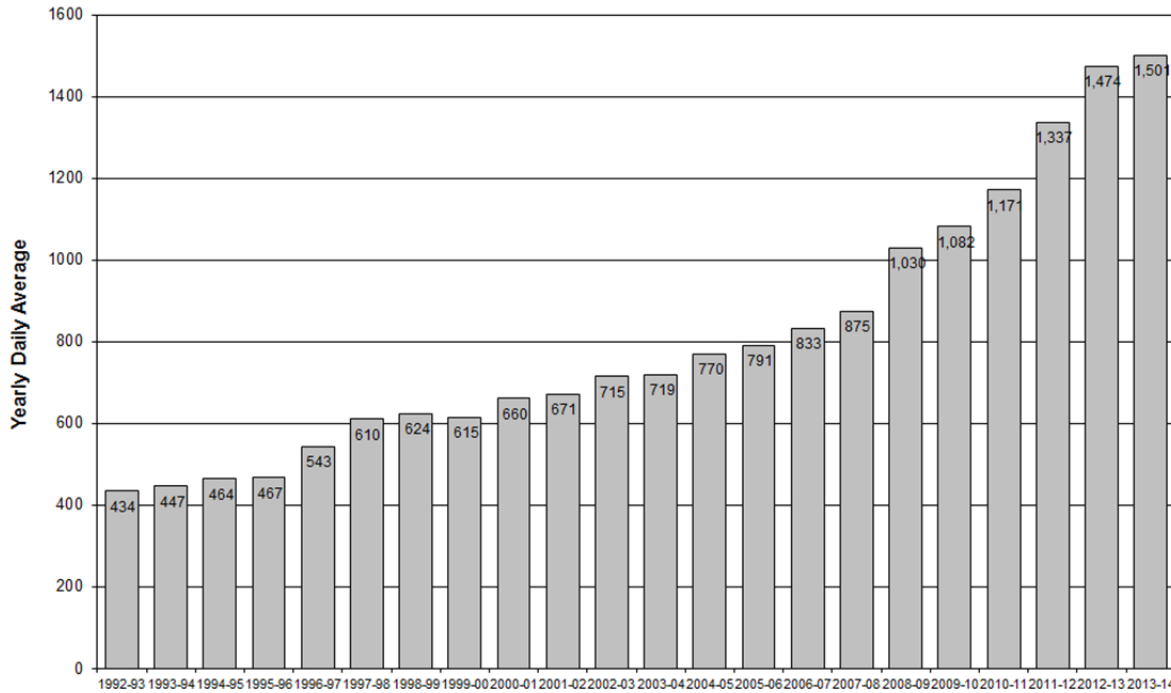

¹ Derived from the Australian Bureau of Statistics publication (3101.0) – Australian Demographic Statistics, June 2014.

ADULT PRISONERS

Population

The daily average number of prisoners held in adult correctional institutions in the Northern Territory in 2013-14 was 1,501 which was 2% higher than the previous year (1,474). The following figure shows the prison population has steadily been increasing over the past 22 years.

Figure 2 Yearly daily average adult prisoners from 1992-93 to 2013-14.

The minimum and maximum number of prisoners that were held in custody in an adult correctional institution in the Northern Territory on any day during 2013-14 was 1,390 and 1,582 respectively. The average occupancy level of the combined correctional institutions was 125% during the year.

Table 1 Summary of adult prisoner numbers in 2013-14 by correctional institution.

Correctional Institution	Minimum	Maximum	Daily Average	Design Capacity	Average Occupancy Level
Alice Springs Correctional Centre	551	653	621	476	130%
Darwin Correctional Centre	723	892	809	678	119%
Barkly Work Camp	60	75	70	50	140%
All Centres	1390	1582	1501	1204	125%

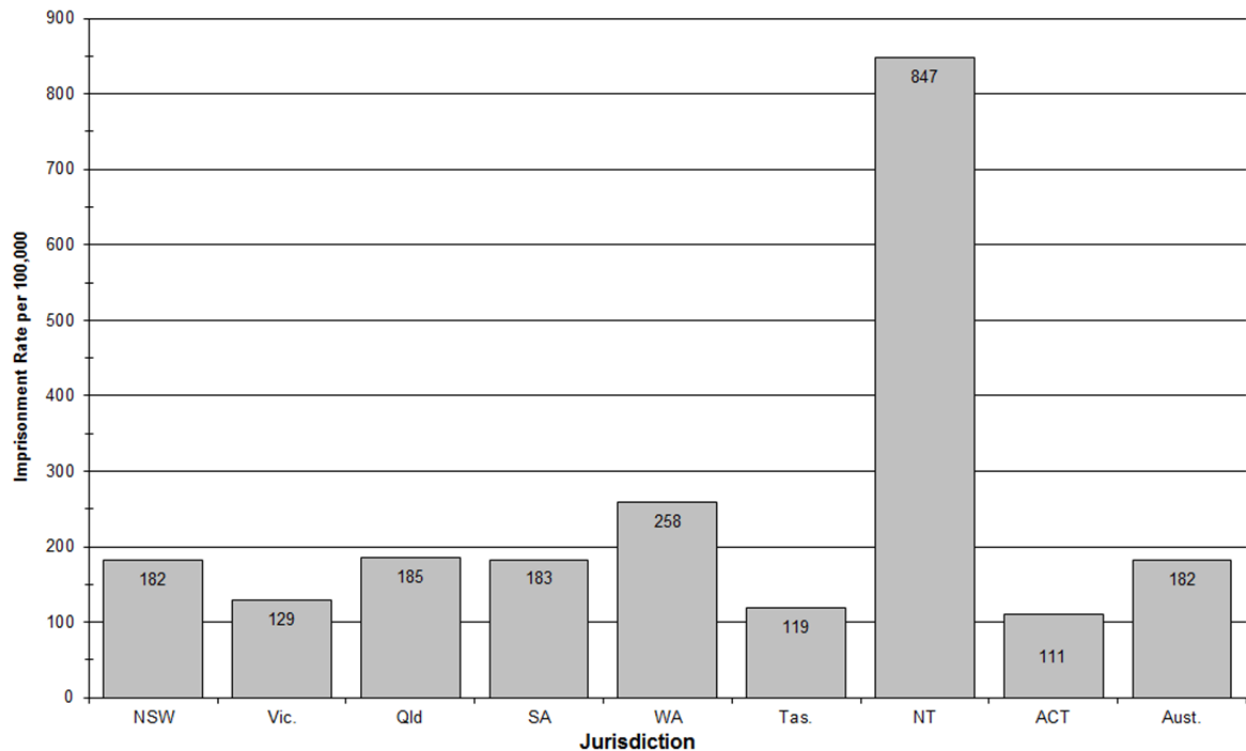

Receptions

There were 4,013 receptions into Northern Territory adult correctional institutions during 2013-14, an increase of 2% from the previous year. These receptions involved 3,134 distinct persons.

Imprisonment Rates

The rate of imprisonment² of adults in the Northern Territory for 2013-14 is estimated to be 847 per 100,000 adults, which continues to be significantly higher than in other jurisdictions (see Figure 3 below). The national rate of imprisonment is estimated as 182 per 100,000 adults.

² Derived from the Australian Bureau of Statistics publication (4512.0) – Corrective Services Australia, June quarter 2014.

Figure 3 Estimated adult imprisonment rates by jurisdiction, 2013-14.

Estimates of imprisonment rate per 100,000 adult population based on ABS Corrective Services Australia (4512.0).

Sentenced Prisoners

On 30 June 2014, sentenced prisoners represented 72% of those in custody. Of these, 38% had a sentence of less than 12 months.

During 2013-14, sentenced prisoners represented 62% of the receptions and 71% of the daily average number of prisoners in adult correctional institutions.

The average sentence length for prisoners sentenced to imprisonment during 2013-14 (excluding prisoners with life sentences) was 235 days and the median aggregate sentence length was 121 days, similar to the previous year's values of 238 days and 122 days respectively. The average sentence length for Indigenous prisoners who were sentenced was 214 days.

The most common offence type for sentenced episode commencements was 'Acts intended to cause injury' which represented 50% of the commencements. The average aggregate sentence length was 227 days (which is slightly less than the previous year's average of 243 days). The longest average aggregate sentences were recorded for 'Murder' (life), 'Manslaughter and driving causing death' (2,656 days), and 'Sexual assault and related offences' (1,479 days).

The average sentence length for all sentenced prisoners held in custody during 2013-14 (excluding prisoners with life sentences) was 496 days and the median sentence length was 163 days.

Offence

The most common offences³ for prisoners held in custody on 30 June 2014 were 'Acts intended to cause injury' (53% of prisoners), followed by 'Sexual assault and related offences' (12% of prisoners) and 'Homicide and related offences' (8% of prisoners).

Last Known Address

Alice Springs was the most common last known address for prisoners held in custody on 30 June 2014 representing 19% (288) of prisoners in custody. This was followed by Katherine at 9% (132), Darwin at 7% (110), Casuarina at 7% (106) and Tennant Creek at 7% (102).

³ The most serious offence for the custody episode as recorded in IOMS.

Indigenous Status

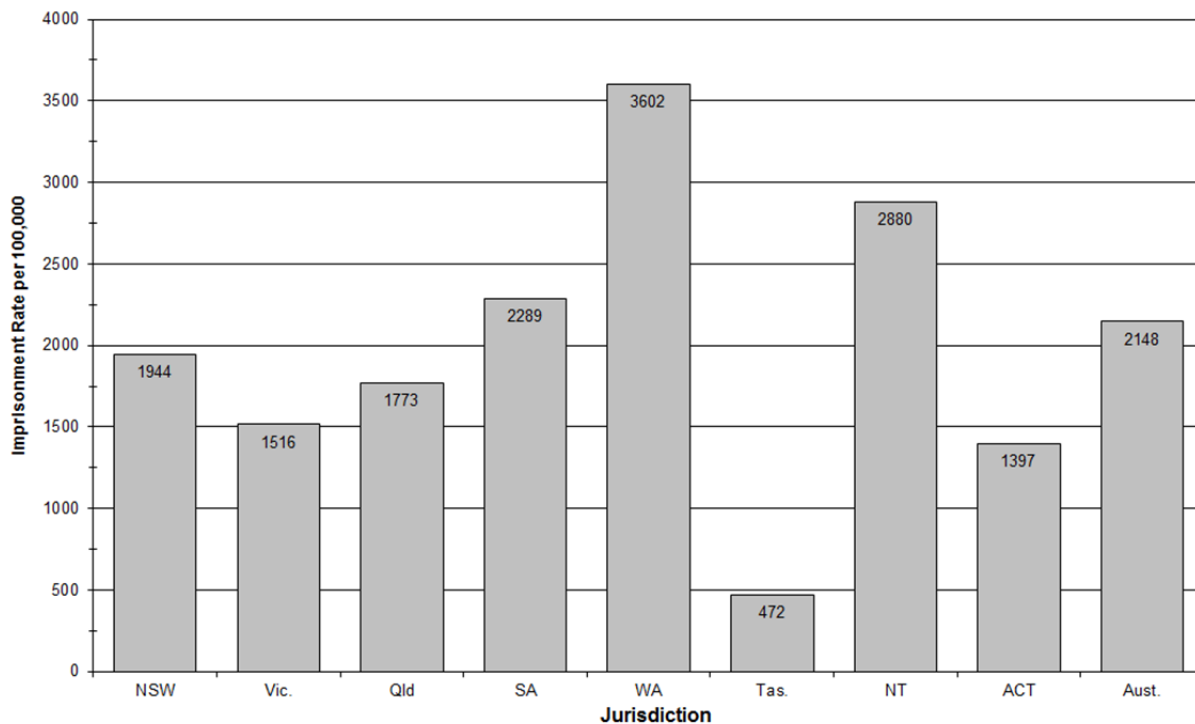

The daily average number of Indigenous prisoners in custody during 2013-14 was 1,296, which represented 86% of the total daily average.

On 30 June 2014, there were 1,267 Indigenous prisoners in custody in an adult correctional institution in the Northern Territory, which represented 85% of total prisoners.

The figure below shows that the 2013-14 estimated rate of imprisonment of Indigenous adults in the Northern Territory was 2,880 persons per 100,000 Indigenous adults, which is 34% more than the national average of 2,148 persons per 100,000 Indigenous adults.

The estimated 2013-14 Northern Territory non-Indigenous rate of imprisonment was 155 per 100,000 non-Indigenous adults, compared with the national rate of 135 per 100,000⁴. Excluding people smugglers from the non-Indigenous prisoner population, the estimated Northern Territory non-Indigenous rate of imprisonment would be 153 per 100,000 non-Indigenous adults.

Figure 4 Estimated adult Indigenous imprisonment rates by jurisdiction, 2013-14.

Estimates of imprisonment rate per 100,000 adult Indigenous population based on ABS Corrective Services Australia (4512.0).

Age

The average age of distinct prisoners received into custody during 2013-14 was 33 years. There were 23 distinct prisoners received into custody who were aged 60 years or older, with the oldest prisoner aged 87 at reception.

Sex

On 30 June 2014, there were 108 female prisoners in custody, which represented 7% of the Northern Territory prison population. During 2013-14, there were 257 sentenced female receptions, a 1% decrease compared with the previous year (259).

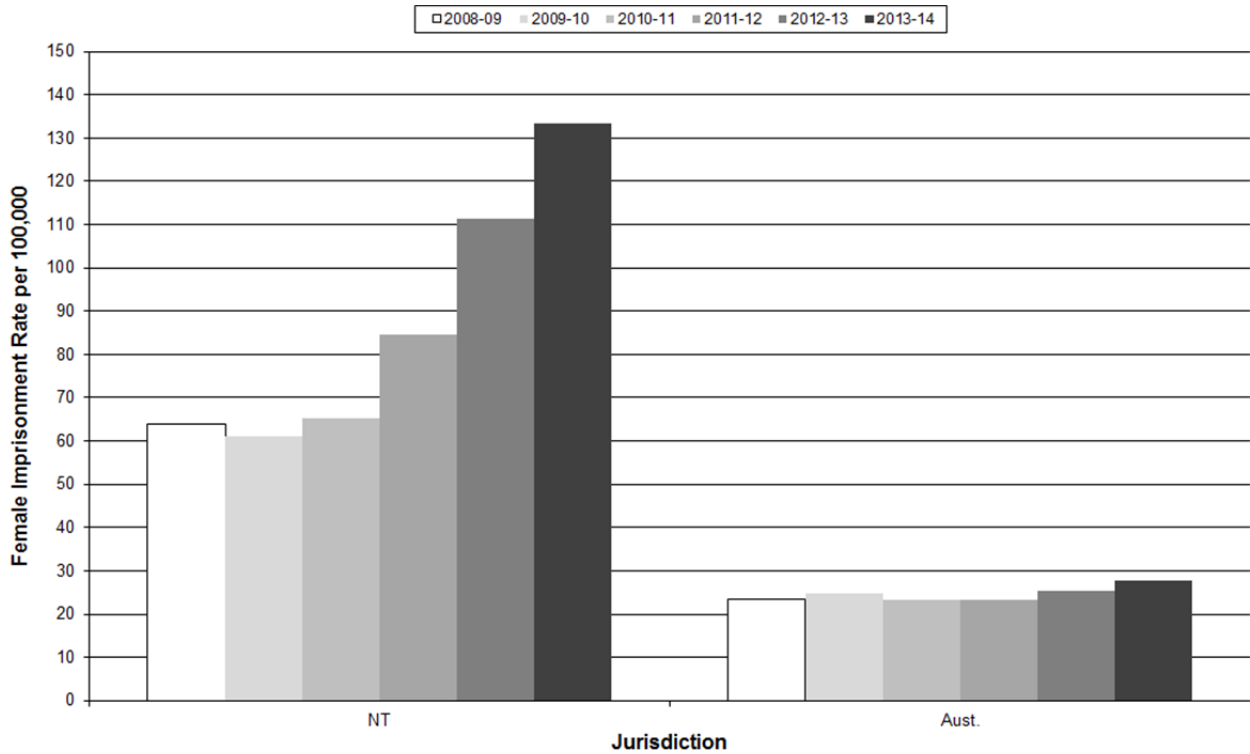

The daily average number of adult females in custody during 2013-14 was 111, which was 22% higher than the previous year (91). During 2013-14, the average daily proportion of females in the Northern Territory prison population was 7% compared to the national average of 8% for the same period⁵.

⁴ The NT and national non-Indigenous adult population estimates for 2013-14 were derived from rates used in ABS (4512.0) Corrective Services Australia – June Quarter 2014.

⁵ Figures for 2013-14 - Estimates based on ABS Corrective Services Australia – June Quarter 2014.

The estimated Northern Territory female imprisonment rate for 2013-14 was 133 per 100,000 adult females, an increase of 20% from the previous year. The estimated Australian rate for the same period was 28 per 100,000 adult females.

Figure 5 Estimated adult female imprisonment rates, 2008-09 to 2013-14.

Estimates of imprisonment rate per 100,000 adult female population based on ABS Corrective Services Australia (4512.0).

Marital Status

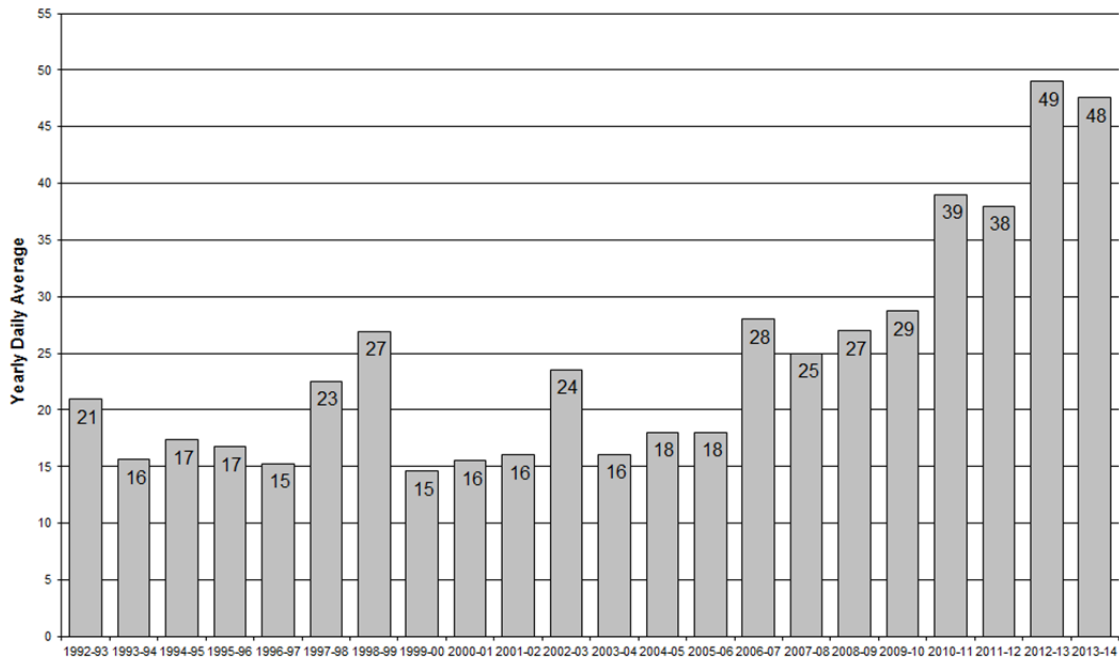

On 30 June 2014, 52% of the prisoners had stated at the time of their reception into custody, that they were married.

YOUTH DETAINEES

Population

As shown in the figure below, there has been considerable change in the annual daily average number of detainees held in youth detention centres over the past 22 years, with marked growth in the most recent decade.

Figure 6 Yearly daily average youth detainees from 1992-93 to 2013-14.

Note: Prior to June 2000, 17 year olds were classified as adults.

The daily average number of detainees held in custody during 2013-14 was 48, which was a decrease of 3% (1 person) from the previous year.

The estimated detention rate for the Northern Territory was 178 per 100,000 youths aged between 10 and 17 years⁶.

The minimum number of detainees held in custody on any day during the year was 37 and the maximum was 63.

Table 2 Summary of youth detainee numbers in 2013-14 by detention centre.

Youth Detention Centre	Minimum	Maximum	Daily Average	Design Capacity	Average Occupancy Level
Don Dale Youth Detention Centre	24	47	24	38	86%
Aranda House	0	0	0	10	0%
Alice Springs Youth Detention Centre	10	23	10	16	93%
All Centres	37	63	37	64	74%

⁶ Ten to seventeen year old population estimates were derived from ABS Estimated Resident Population (see ABS publication 3101.0 June 2014). The estimates include persons from 10 years old, up to but not including person 18 years old.

Receptions and Sentence Status

There were 468 receptions into youth detention centres in the Northern Territory in 2013-14, which involved 249 distinct youths.

Most youths are unsentenced at the time of reception into a detention centre. However, during an episode a detainee may commence several types of orders. Thus during the period, there were 564 distinct order commencements consisting of 464 remand order commencements and 100 sentenced detention order commencements. The daily average number of sentenced detainees during 2013-14 was 19.

Offence

The most common offences⁷ for youths received into detention during 2013-14 were 'Acts intended to cause injury' (38% of all receptions) and 'Unlawful entry with intent/burglary, break and enter' (31% of all receptions). There was a 16% increase in the number of youths received into detention for 'Acts intended to cause injury' (from 153 offences in 2012-13 to 177 offences in 2013-14).

Indigenous Status

During 2013-14, 429 (92%) of the 468 youth receptions involved Indigenous detainees. Of the 100 sentenced youth receptions 96% (96) were Indigenous.

Age

Of the 249 distinct detainees who commenced at least one episode in a youth detention centre during 2013-14, 32% were aged less than 15 years.

Sex

Most of the detainees received into a youth detention centre during 2013-14 were males. Only 66 (14%) of the 468 receptions were for female detainees, which was 12% more than the previous year's figure of 59 (14% of 429 receptions).

⁷ Most serious offence as recorded in IOMS.

FOREIGN NATIONAL PRISONERS

Foreign national prisoners are often held in Northern Territory correctional institutions and are included in the counts as non-Indigenous. The yearly daily average number of foreign national prisoners reached a peak of 145 in 2000-01.

Between 1999-00 and 2002-03, the majority of foreign national prisoners held in Northern Territory correctional institutions were classified as people smugglers. People smugglers are generally non-Australian citizens in custody for federal 'people smuggling' offences⁸. There was a rapid increase in the number of receptions of people smugglers during the 1999-00 financial year. During the period 1999-00 to 2001-02, people smugglers represented a significant proportion of the total custody population and a large proportion of the non-Indigenous custody population. The yearly daily average number of people smugglers reached a peak of 122 in 2000-01. By 2003-04, the number of people smugglers had become negligible until 2010-11 to 2012-13 where over the three year period numbers averaged 27.

Table 3 Summary of estimated daily average foreign prisoners and detainees from 1995-96 to 2013-14.

Year/Quarter	Foreign Citizens			Total Foreign Citizens	% of All Prisoners and Detainees
	Offence Type				
	Federal		Non-Federal		
	People Smugglers	Other Federal

Dec. qtr 2013	3	9	18	30	2%
Mar. qtr 2014	3	9	20	31	2%
Jun. qtr 2014	2	9	25	36	2%

Adult Prisoners

On 30 June 2014, there were 31 foreign nationals in custody in an adult correctional institution, representing 2% of the total adult correctional institution population. Of these, 2 were 'people smugglers'.

Youth Detainees

On 30 June 2014, there were no foreign national youths in custody in a correctional institution.

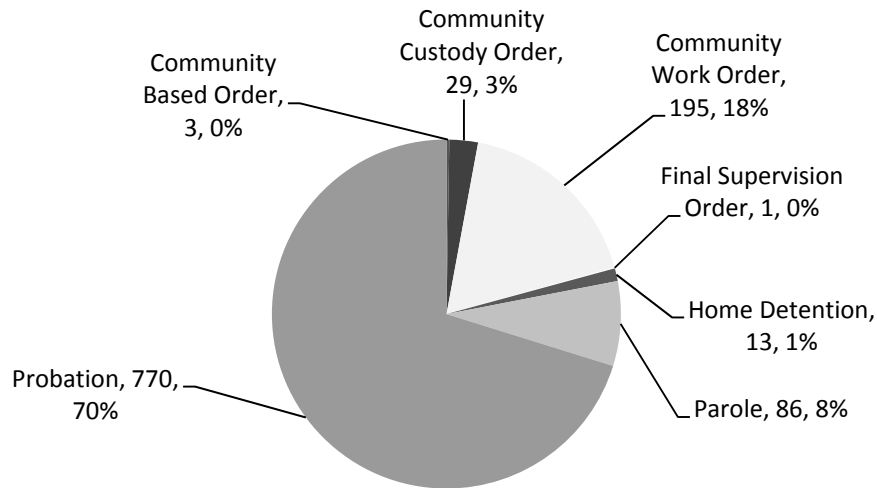

⁸ Most serious offence as recorded in IOMS.

COMMUNITY CORRECTIONS PROGRAMS

Program Caseload

As at 30 June 2014, the Community Corrections caseload consisted of 952 adult programs and 145 youth programs. Of these, 770 (70%) were for probation orders and 195 (18%) were community work orders.

Figure 7 Community Corrections program caseload (adult and youth) as at 30 June 2014.

Commencements

During 2013-14, there were 1,604 community-based program commencements, 17% (335) fewer than the previous year. The number of parole orders decreased by 42% (75) and the number of probation orders decreased by 25% (290). Probation orders were the most common community-based commencement, followed by community work orders, comprising 55% (875) and 32% (507) respectively.

Indigenous Status

Indigenous people represented 83% (1,331) of the community-based program commencements.

Age

The majority (1,351 or 84%) of community-based program commencements were for adults. The average and median age for distinct persons who commenced a community-based program during 2013-14 was 30 years and 28 years respectively. The youngest person to commence an order was 11 years and the oldest was 81 years.

Sex

Females comprised 19% (298) of the community-based program commencements for 2013-14.

OVERVIEW OF PERFORMANCE

This part of the report is committed to reporting the activities and progress of the Department against the five key focus areas, which are described in detail in the Business Plan:

- Containment
- Supervision
- Offender Rehabilitation and Reintegration
- Reparation
- Advice to Sentencing Authorities

PERFORMANCE

The following table contains information produced by the Steering Committee for the Review of Commonwealth/State Service Provision (SCRCSSP) contained in the 'Report on Government Services, 2015', which compares service delivery performance across jurisdictions in Australia. Each jurisdiction provides standard information by which comparisons can be made. For corrective services, performance is categorised according to efficiency or effectiveness. Key focus areas mentioned above are addressed by at least one indicator and a selection of summary indicators are presented in the following table.

The information presented in the following table for other jurisdictions is for 2013-14. The Agency uses many of the findings from this exercise to establish benchmarks for its own business planning exercises.

In many instances, the Northern Territory differs from other jurisdictions. These unique characteristics include the small general population of which a high proportion is comprised of Indigenous persons, dispersion of the population and remoteness, which results in higher costs for goods and services, and the physical location of the Northern Territory in comparison to other states.

It should also be noted that some of the indicators used in the following table might differ from those used elsewhere in this Annual Report. This may be due to differences between jurisdictions in accrual or cash accounting processes and the exclusion of youth justice from the SCRCSSP exercise.

As can be seen, the Northern Territory compares reasonably with other jurisdictions in most of the performance indicators mentioned above. The measure of recidivism is seen to be a partial measure of the whole justice system, not just the correctional system. It is recognised that the rates of recidivism are influenced by many factors outside the justice system, including education, employment and social conditions. The measures of recidivism used are limited in that they do not consider the types of re-offending, only follow a person within the same jurisdiction in which they completed the original corrections program and do not include any offences which result in an outcome not administered by correctional services (e.g. fines, bonds and suspended sentences).

Table 4 National Performance Indicators.

na – not available

nc – not collected

.. – not applicable

- – nil or rounded to 0

* – No information relating to offender care has been collected relating to community supervision.

Notes for Table 4:

1. All prisoners released following a period of sentenced imprisonment who return to prison in the same jurisdiction within 2 years of their release.
2. Offenders returning to a community corrections program in the same jurisdiction within 2 years of them successfully completing a program.
3. Relevant population refers to all person aged 18 years and over.
4. Per 100 prisoners and refers to prisoners, not incidents. Rate is determined by the number of prisoners divided by prisoner daily average (open or secure).
5. Per 100 prisoners and is determined by the number of deaths divided by the prisoner daily average.
6. Prior to 2009-10 figures were counted as at 30 June for persons serving 3 months or more. In 2009-10, the NT changed its counting methodology to count all prisoners enrolled on the first school day of the month, averaged over 12 months.
7. Includes direct employee expenses (excluding payroll tax and long service leave) and operational costs, apportioned indirect costs for corporate support services provided by umbrella and expenditure incurred by other departments on our behalf.
8. Capital costs not included.
9. Community supervision counts distinct persons not orders and for the Northern Territory, home detention clients are included in this group.
10. Northern Territory figures do not include clients whose order has been in suspense (breach) for three years or more.

Total	363	0	383	623	41	9	2		1434

Fine default – Those prisoners who are serving a sentence for non-payment of a fine and are subject to no other sentence at the time. Offenders who are serving fine default sentences while on remand are counted as sentenced (fine default) prisoners.

Max-Min – Maximum term specified and minimum term or non-parole period set.

Fixed term – No post-release follow-up period set.

Indefinite - Other – Includes prisoners detained at the Administrator's pleasure or subject to Judicial Review.

Indefinite -Parole – Prisoners who have received a life sentence with a non-parole period set.

- Of those who were unsentenced, 85% were Indigenous.
- Indigenous prisoners comprised 99% of those with fixed term sentences and 82% of those with max-min sentences.
- 'Max-Min' sentences decreased by 9% compared to the previous year however represented the most common type of sentence.
- There was an 11% increase in the number of fixed term sentences on 30 June 2014 compared with the previous year.

ADULT PRISONER AND YOUTH DETAINEE TURNOVER DURING 2013-14

Note:

The figures represent the averages rounded to the nearest integer.

- There was a 2% increase in the yearly daily average compared to the previous year.
- The yearly daily average number of sentenced prisoners decreased by 9% and unsentenced prisoners increased by 31%.
- Indigenous prisoners represented 86% of the daily average compared to 85% the previous year.

Other Discharge From Custody – These are predominantly prisoners released from court, ie bailed, released following finalisation of charges. Also includes releases on non-supervised bonds and community work orders.

- The total number of prisoners released increased by 2% compared with the previous year.
- Prisoners released for 'expiry of sent (full term)' and for 'other discharge from custody' each increased by 13% compared with the previous year.
- Prisoners released to 'supervised bond' decreased by 17% compared to the previous year.
- There was a 47% decrease in the number of prisoners released on parole and deportations decreased by 73% from the previous year.

Note: The age group and correctional institution is for the first reception for a distinct person.
Youth aged 15 to 17 years can be accommodated in adult correctional institutions.

- The average age of distinct Indigenous adults received into custody in 2013-14 was 33 years and for distinct non-Indigenous adults was 35 years.
- During 2013-14, there were 23 distinct persons aged 60 years or older received into custody, which represented less than 1% of distinct persons received. The eldest person received was 87 years of age.

Place of origin – Self reported location of origin, as recorded in IJIS and aggregated into Police Districts.

Note: The correctional institution is for the first reception for a distinct person.

- Interstate prisoners decreased by 33% or 122 distinct prisoners from the previous year. However they still comprised 8% (248) of distinct prisoners received into an adult correctional centre during the year and 35% of total distinct non-Indigenous prisoners.
- The Alice Springs district represented 23% of distinct prisoner receptions, followed by Darwin (17%) and Katherine (8%).
- The number of 'Unknown' locations of origin increased by 237% or 122 distinct prisoners from the previous year. The increase is due to the non recording and/or updating of origin data.

* includes indefinite sentences

Note: 'life' sentences not included in total mean and median calculations.

Aggregate sentence – Is determined as the period between the most recent full-time discharge date (as at 30 June 2014) and the date of reception for the episode.

Most serious offence – As recorded from information derived from IOMS and IJIS.

- There were 2,353 sentenced episode commencements during 2013-14, 8% fewer than in 2012-13. This includes 186 people who were on remand on 30 June 2013 who became sentenced within the same episode during the following 12 months.
- These sentenced episode commencements relate to 2,040 distinct persons.
- 'Acts intended to cause injury' was the most common offence type for sentences commencing in 2013-14 comprising 50% of the commencements. This was followed by 'Offences against justice procedures, government security and government operations' (22%) and 'Traffic and vehicle regulatory offences' (10%).
- 'Murder' and 'Manslaughter and driving causing death' on average received the longest aggregate sentences of life and 2,656 days. They were followed by 'Sexual assault and related offences' which had an average aggregate sentence of more than 4 years.
- Four people commenced a life sentence for murder during 2013-14.
- 68% of the sentenced episode commencements had an aggregate sentence of less than 6 months.
- Indigenous people represented 92% of the sentenced episode commencements. The average aggregate sentence length for Indigenous prisoners was 214 days, 21 days less than the average for all persons.

* includes indefinite sentences

Note: 'life' sentences not included in total mean and median calculations.

Aggregate sentence – Is determined as the period between the most recent full-time discharge date (as at 30 June 2014) and the date of reception for the episode.

Most serious offence – As recorded from information derived from IOMS and IJIS.

- In 2013-14, there were 247 sentence commencements for adult females, 4% fewer than the previous year. Adult female commencements represented 10% of all sentence commencements for all adults during this period.
- The average aggregate sentence length for females was 10 days less than the average for all adults.
- 'Acts intended to cause injury' was the most common offence for females who commenced a sentence in 2013-14 (42% of commencements), followed by 'Offences against justice procedures, government security and government operations' (29%) and 'Traffic and vehicle regulatory offences' (12%).

* includes indefinite sentences

Note: 'life' sentences not included in total mean and median calculations.

Aggregate sentence – Is determined as the period between the most recent full-time discharge date (as at 30 June 2014) and the date of reception for the episode.

Most serious offence – As recorded from information derived from IOMS and IJIS.

- There were 3,425 episodes which commenced prior to or during 2013-14 and were sentenced prior to or became sentenced during 2013-14; 90% of these episodes related to Indigenous prisoners.
- The average aggregate sentence for those held during 2013-14 was 496 days and the median was 163 days.
- During 2013-14, there were 57 episodes in which the aggregate sentence for the prisoner was either a life or indefinite sentence; murder was the most serious offence for 48 of these episodes.

Note:

The figures represent the averages rounded to the nearest integer.

- The 2013-14 daily average decreased by 3% (1 person) compared with the previous year.
- On average, 96% of the detainee population was Indigenous.
- On average, 40% of the detainee population was sentenced and 60% were unsentenced.

Table 24 Youth exits by institution, release reason and Indigenous status.

Centre Total 2012-13	13		114		276		403			

Other Discharge From Custody – These are predominantly youths released from court, ie bailed, released following finalisation of charges. Also includes releases on non-supervised bonds and community work orders.

- The number of youth exits increased by 10% from the previous year.

Table 25 Youth orders and distinct episode commencements by Indigenous status and sex.

Order Type	Indigenous		Non-Indigenous		Total	
	Male	Female	Male	Female	2013-14	2012-13
Sentenced/Detention	86	10	4	0	100	81
Fine Default	0	0	0	0	0	0
Remand	364	61	36	3	464	421
Immigration	0	0	0	0	0	0
Total 2013-14	450	71	40	3	564	
Total 2012-13	384	63	52	3		502
Distinct episodes 2013-14	366	63	36	3	468	
Distinct episodes 2012-13	324	56	46	3		429

Note: It is common for more than one type of order to commence during an episode; consequently, the total number of order type commencements may exceed the number of distinct episodes.

- Remand orders comprised 82% of order type commencements in 2013-14.
- During 2013-14, 78% of the distinct episodes commenced were for Indigenous male youths.

Last known address – As recorded in IOMS and aggregated into Police districts.

Age – In years at first reception.

Included in the total for Wadeye and total 2013-14, is one Indigenous youth offender who was 18 at time of reception.

- 24% of distinct youths received in 2013-14 came from the Alice Springs district. This was followed by Palmerston and Casuarina each at 14% and Wadeye at 7%.

Table 27 Youth receptions by offence.

Total 2013-14	171	170	125	468	
Total 2012-13	150	180	98		429

Most serious offence – As recorded in IOMS.

Age – In years at reception.

Note: A youth may commence several short remand episodes for the same offences without being convicted. The total figure for 2013-14 includes two youth offenders who were 18 at time of reception.

- 'Acts intended to cause injury' was the most common offence type for youth receptions in 2013-14, comprising 38% of receptions. This was followed by 'Unlawful entry with intent/burglary, break and enter', comprising 31% of receptions.
- The offence group 'Acts intended to cause injury' increased by 16% or 24 offences from 2012-13.
- Youths aged 10-14 comprised 37% of total youth receptions during 2013-14.

Note:

Adult status is based on age at commencement of program.

Figures are distinct by program thus the total figure does not represent distinct clients, as a client may have different programs active simultaneously.

Active orders counted only ie no orders in breach included.

Due to legislative changes, Alcohol Intervention Orders and Smart Orders have been made redundant.

- There was a 13% decrease in the adult caseload as at 30 June 2014 compared with the same time the previous year.
- Indigenous persons represented 77% of the adult caseload as at 30 June 2014.
- There was a 46% increase in programs for the Groote Eylandt office and a 29% decrease in programs for the Palmerston office.
- Community Custody Orders increased by 53% compared with the same time the previous year.
