Good afternoon,

I would like to make comment regarding the current reform taking place.

I agree strongly that reform should take place and I am pleased to see many of the suggestions.

My concern, however is that as a practising Christian these reforms would limit our ability to select and provide Christian Education to our children.

It would be not only counter-productive but also hypocritical to review a document designed to prevent discrimination and in the process discriminate against a section of the community providing care and well-being to their children.

I urge for review to be carefully measured.

I also make request for the findings and submissions of the public consultation to be made public for transparency and accountability

With many thanks
